

CLEARING THE HURDLES

Get a Solutions-oriented Approach to Move You from Corporate Governance Awareness to Sarbanes-Oxley Compliance

How will you clear the hurdles of Sarbanes-Oxley and achieve compliance? As the most sweeping U.S. law on securities regulation and corporate governance in decades, Sarbanes-Oxley presents special challenges to the internal audit profession. But the **NEW CHALLENGES, NEW SOLUTIONS CONFERENCE** will move you from corporate governance awareness to Sarbanes-Oxley compliance by giving you the tools you need to fulfill the new requirements.

We're bringing in experts – including chief financial officers, executive vice presidents and chief audit executives – to show you how to clear the compliance hurdles. Aimed at both high-level executives and mid-level audit professionals, this leading-edge conference will give you hands-on solutions to help improve corporate accountability within your organization.

What **specific steps** should you take to comply with **Sarbanes-Oxley**? What are internal auditing's newly defined roles and responsibilities in corporate governance? What impact will all of this have on investor confidence? Find out at this solutions-based program, where you'll learn about disclosure and internal control certifications, joint audit planning, new COSO framework for ERM, remediation of reportable conditions and much more.
